DENTAL CENTER

Comfortable, Personalized, Lifetime Dental Care

WELCOME TO OUR OFFICE

We are so glad you have decided to join us. Dr Gustavsen and his staff want to make your visit as pleasant and comfortable as possible. Please feel free at any time to let us know if there is anything we can do to make your dental experience better.

Our custom designed facility has been carefully engineered to integrate the latest in dental technology with a warm, soothing atmosphere. We offer low radiation digital x-rays, tooth cameras that allow you to see what we see, “the wand” computerized anesthetic delivery, ultra quiet electric handpieces, along with the latest sterilization techniques. Bring your favorite DVD or CD and tune out and watch a movie with our wireless headphones as you have your smile rejuvenated! We offer a full range of dental services, but particularly enjoy doing natural looking tooth colored restorations to replace dark fillings, or repair cracked or chipped teeth. We have also discovered few things make people feel as good as having a new smile created with porcelain veneers or a dark smile brightened by bleaching. To see more examples and get all kinds of useful information about our office and the dentistry we do visit our website at southpointdentalcenter.com.

As a dental team we are committed to the values you see below in our mission statement.
